PT.HENRY MACHINERY SPARE PARTS INDONESIA

亨瑞機械配件（印尼）有限公司

Henri Machinery Parts Indonesia Co., LTD

Profil perusahaan 公司簡介
Enterprise Introduction

PT.HENRY MACHINERY SPARE PARTS INDONESIA adalah perusahaan yang mengkhususkan diri dalam pembuatan, penjualan, dan layanan (pemeliharaan dan relokasi) yang berspesialisasi di basuhan beton Produk utama yang dihasilkan perusahaan adalah mengaduk–aduk komponen mesin bangunan, penyekat ujung poros, penutup kepala batang, sambungan penutup, penumpukan logam campuran yang tahan lama, aksesori mekanis untuk tambang, dan lain–lain.

Kami selalu mengikuti kebijakan bisnis "yang berorientasi pasar, berkualitas tinggi untuk bertahan hidup, berinovasi, berkarier untuk melayani, dan menciptakan sistem kontrol kualitas produk yang bagus dengan rancangan 3 dimensi CAD dan CAPP bantu."

Pengalaman membangun dan berhasil mengajarkan kepada kita bahwa integritas adalah batu landasan dari komunikasi kita. Kami bersahabat, tulus, dan bersahabat. Ada integritas antara rekan kerja dan tim.

Kami adalah kelompok yang berdedikasi. Dalam perkembangan bisnis, kewirausahaan, dedikasi tinggi, kewirausahaan, dan dukungan penuh dari orang–orang di seluruh dunia, kami ingin berjalan bergandengan tangan dengan dunia baru.

亨瑞機械配件（印尼）有限公司是一家專業從事混凝土攪拌站（樓）配件生產、銷售和服務（維修及搬遷）于一體的企業。公司主要產品有：攪拌樓主機配件、軸端密封件、軸頭外殼、端蓋配件、耐磨合金鑄件、礦山破碎機械配件、各類機械刀具等。

我們一直遵循“以市場爲導向，以質量求生存，以創新求發展，以服務求信譽”的經營方針，產品采用三維 CAD 設計和 CAPP 輔助工藝設計，建立了一套完善的產品質量控制體系。

發展與成功的經驗告訴我們，誠信是我們交流的基石。我們以 誠信友善之心結交各界朋友，信奉商道即人道。有同事間的誠信，方有衆志成城的團隊，有你我間的誠信，方能有合作、信譽、未來！

我們是一個講求奉獻的集體。員工奉獻才智，企業奉獻社會，同時也離不開社會各界人士的鼎力支持，在企業發展步入新社會之際，我們願與社會各界携手同進，共謀發展，以高品質的產品、系統而專業的服務奉獻給我們共同携手的明天！

Henrui Machinery Parts Indonesia Co., Ltd. is a professional engaged in concrete mixing plant (building) parts production, sales and service (maintenance and relocation) in one of the enterprises. The company's main products are: mixing floor main machine accessories, shaft end seals, shaft head shell, end cap accessories, wear-resistant alloy castings, mining crushing machinery accessories, all kinds of mechanical tools.

We have been following the "market-oriented, quality for survival, innovation for development, service for reputation" business policy, products using three-dimensional CAD design and CAPP assisted process design, established a set of perfect product quality control system.

The experience of development and success tells us that honesty is the cornerstone of our communication. We are honest and friendly heart to make friends from all walks of life, believe in business is humanity. With the integrity of colleagues, there is a united team, with the integrity between you and me, can have cooperation, credibility, the future!

We are a dedicated group. Employees contribute talents, enterprises contribute to the society, but also inseparable from the support of people from all walks of life, in the development of enterprises into a new society, we are willing to work together with all walks of life, seek common development, with high quality products, systems and professional services dedicated to our work together tomorrow!

攪拌樓搬遷系列
Mixing floor relocation series

Beberapa masalah mengenai relokasi dan pembongkaran mulai terjadi karena berbagai alasan. Harapan dapat membantu anda semua.

Peralatan pabrik tidak hanya akan menjamin relokasi lengkap, tapi juga di dapat meng–install dan menggunakan normal setelah pindah, saat mereka dipindahkan dengan beberapa program, seperti membongkar, dipelihara, transportasi,, lagi, salah satu yang paling penting adalah melaku–kan perjalanan melewati relokasi perempat pembongkaran blender lagi sedang ditambang di bekerja, maka proses ini menetapkan berapa banyak biaya yang dibutuhkan? Program "0 direlo–kasi", yang dikeluarkan oleh perusahaan ini, adalah sejumlah layanan teknis yang diarahkan dari stasiun blender, pemeliharaan, kemasan, transportasi, transportasi, instalasi, mengawakutu, uji coba, operator pelatihan, DLL.

Kasus relokasi perusahaan di place caffe sebagian besar berkaitan dengan: shoma, south–way, triple heavy, cinco, libohel, zen zen BHS.

由于各種原因混凝土攪拌站會遇到搬遷和拆遷的問題，混凝土攪拌站拆遷是一個非常繁瑣的清除工作，因爲在搬遷過程中我們不但要保證設備不受損壞，在搬遷後任然能够正常使用另外還要保證拆遷以後能够順利的安裝試機，本公司根據多年拆遷經驗總結了一下注意事項希望可以幫助到大家。

攪拌站設備不但要保證完整搬遷，而且還要在搬遷後可以正常安裝使用，在搬遷過程中要經過一系列程序，比如拆卸、保養、運輸、重新安裝，其中最重要的是經過搬遷 / 拆遷的攪拌機還能正産工作，那麽這些流程實施起來需要多少運營成本？本公司特推出“零搬遷”項目，也就是指從攪拌站搬遷、保養、裝車、運輸、卸車、安裝、調試、試運轉、培訓操作人員等的一系列技術指導服務，設備合理拆卸，合理裝車，主要部件的保護，做到攪拌站搬遷零投入。

公司攪拌站搬遷案例主要有：仕高瑪、南方路機、三一重工、中聯重科、利勃海爾、天津 BHS 等國内外知名品牌廠家攪拌樓。

Due to various reasons, the concrete mixing plant will encounter the problem of relocation and demolition. The demolition of the concrete mixing plant is a very tedious removal work, because in the relocation process, we not only have to ensure that the equipment is not damaged, but also can be used normally after relocation. The company based on years of demolition experience summed up the attention to hope to help everyone.

Mixing plant equipment not only to ensure the complete relocation, but also in the relocation can be normally installed and used, in the relocation process to go through a series of procedures, such as disassembly, maintenance, transportation, re-installation, the most important of which is after the relocation/demolition of the mixer can also work, then these processes need to implement how much operating costs? The company specially launched the "zero relocation" project, which refers to a series of technical guidance services from the mixing station relocation, maintenance, loading, transportation, unloading, installation, commissioning, test run, training operators, etc., reasonable disassembly of equipment, reasonable loading, protection of the main components, to achieve zero investment in the mixing station relocation.

The company's mixing station relocation cases are mainly: Shigao Ma, South Road machinery, Sany Heavy Industry, Zoomlion, Liebherr, Tianjin BHS and other well-known brand manufacturers at home and abroad mixing building.

Kertas, kemasan, pisau cukur berseri
造紙、包裝、印刷系列刀片
Paper, packaging, printing series blade

Pisau industri ini memiliki berbagai macam pisau pembagi kertas, triplet, dan prostesis, serta pisau tipis yang dapat digunakan untuk membuat garis air, dengan tepi tipis tipis yang dipotong dengan aman, bersih, dan bebas tekanan, meningkatkan kualitas dan wajah karton secara keseluruhan. Kemampuan khusus untuk meningkatkan kualitas pasca cetak, terutama dengan kualitas yang sangat radikal, dengan berbagai kualifikasi: skh–9, skd–11, LDW6Mo5Cr4V2AL, H13K, m442, K30, ASP60 DLL.

紙工業刀片有各種類形修邊分紙刀、三聯、四聯開槽刀，以及適用流水綫生産的薄刀片等，我們的薄刀片分切出的紙板邊緣平整、光潔、無壓扁現象，提高了紙板整體質量和外觀。特別能對後道印刷質量帶來根本性提高，選料 :SKH–9、SKD–11、LDW6Mo5Cr4V2AL、H13K、M42、K30、ASP60 等。

Paper industry blades have a variety of shape trimming edge splitting knife, triple, quadruple slotting knife, as well as suitable for production line thin blade, our thin blade cutting out the cardboard edge flat, smooth, no flattening phenomenon, improve the overall quality and appearance of cardboard. In particular, it can bring fundamental improvement to the printing quality of the post, material selection :SKH-9, SKD-11, LDW6Mo5Cr4V2AL, H13K, M42, K30, ASP60, etc.

Pemotong kardus seri
紙箱長刀系列
Carton long knife series

Seri pisau potong vertikal
縱剪分條系列刀片
Slitting blade series

Dengan mata pisau yang lebih halus, yang ditempa, dipanaskan, digiling, dibentuk dengan presisi yang tinggi dan tahan lama, sifat–sifat seperti minyak, panas, dan asaline, sehingga dapat digunakan untuk waktu yang lama tanpa perubahan bentuk. Baja impor berkualitas tinggi yang dipilih secara khusus: skh–9, skd–11, LD, W6Mo5Cr4V2AL, H13K, M42, K30, ASP60, baja bubuk campuran.

縱剪分條圓刀片選用優質耐磨材質，經過鍛造、熱處理、研磨而成，具有較高的精度和耐磨性，耐油、耐熱、耐酸碱等特點，能長時間使用不變形，從而確保了分條尺寸的精準性。精選優質進口鋼材：SKH–9、SKD–11、LD、W6Mo5Cr4V2AL、H13K、M42、K30、ASP60 等粉末合金鋼。

Slitting round blade is made of high quality wear-resistant material after forging, heat treatment and grinding. It has high precision and wear resistance, oil resistance, heat resistance, acid and alkali resistance, and can be used for a long time without deformation, thus ensuring the accuracy of the slitting size. Selected high-quality imported steel: SKH-9, SKD-11, LD, W6Mo5Cr4V2AL, H13K, M42, K30, ASP60 powder alloy steel.

Berbagai jenis pisau yang dibagi
各類分切圓刀系列
Various slitting round knife series

Pisau yang sebagian besar digunakan untuk memotong bagian barang–barang seperti karet, listrik, baterai lithium, kertas, membran, aluminium foil, dan menuntut agar pisau memotong resistensi minimal dan paling tahan lama. Permintaan akan presisi barang kadang–kadang harus mencapai keakuratan mikrometer. Baja berkualitas tinggi dipilih secara khusus: skh–9, skd–11, LD, W6Mo5Cr4V2AL, H13K, m442, K30, ASP60, baja bubuk campuran.

分切圓刀主要用于橡膠、電子、鋰電池、紙張、薄膜、鋁箔等物品的分切，要求刀片切斷阻力最小，耐磨損性最大。出于對商品精度的要求刃具有時須達到微米級精度。 精選優質鋼材：SKH–9、SKD–11、LD、W6Mo5Cr4V2AL、H13K、M42、K30、ASP60 等粉末合金鋼。

The slitting round knife is mainly used for slitting rubber, electronics, lithium batteries, paper, film, aluminum foil and other items, requiring the blade to cut off the least resistance, the greatest wear resistance. Due to the requirement of commercial accuracy, cutting tools must sometimes reach micron level accuracy. Selected high quality steel: SKH-9, SKD-11, LD, W6Mo5Cr4V2AL, H13K, M42, K30, ASP60 powder alloy steel.
